

	Type	Status	Environment	Page / Function	Summary	Severity	Priority	Preconditions	Steps to reproduce	Expected result	Actual result	Attachments	QA Commentary	Developer commentary				
bug	closed	Win 10 / Opera	Catalog		Scrollbar overlaps content on the right on the Catalog page	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Examine the left and right margins of the page.	Content is on the same distance from left and right, scrollbar does not overlap the content on the page.	Right margin is different from left margin, and scrollbar overlaps game card on Catalog page.	Test Evidence 36						
bug	closed	Win 10 / Opera	Sign Up		Password eye missing from Password field on Sign In / Sign Up pages	Minor	Low	1. Navigate to the page	1. Open Sign In / Sign Up in the Header. 2. Enter a password into Password field.	Entered password is hidden due to security purposes. There's a password eye in Password field that allows a user to view the password and the symbols entered. If user click on password eye again, the password is hidden again.	There is no "password eye" in Password field, and user cannot see and check the password entered.	Test Evidence 22						
bug	closed	Samsung Android Chrome	Account		User's avatar overlaps the "Go back" button on Account page when portrait mode is on	Minor	High	1. Navigate to the page	1. Open user's account page. 2. Locate the "Go Back" button.	"Go Back" button is situated in the upper left corner, and user's avatar in the center of the screen.	"Go Back" button is situated in the center of the screen, and user's avatar overlaps the button from the bottom.	Test Evidence 20						
bug	closed	Win 10 / Opera	Catalog		Blank page displays after clicking on Catalog in the menu when Catalog page is open	Critical	High	1. Navigate to the page	1. Open Catalog in the Header. 2. Click on Catalog while the Catalog page is already open.	Either the page should refresh, or no effect should be caused by the repeated click on Catalog in navigation menu.	The page gets blank and in Console in DevTools error appears.	Test Evidence 27						
bug	closed	Win 10 / Opera	Sign Up		Browser hints overlap the error message when user puts cursor in any input field on Sign Up page	Major	High	1. Navigate to the page	1. Open Sign Up in the Header. 2. Put cursor in Email or Password field on Sign Up page.	Browser hints appear after cursor is put in the field, but they disappear when user starts typing data. Error messages appear to give information on data format request.	Error message appears to be overlapped by browser hints appearing after user puts mouse cursor in the field.	Test Evidence 1						
bug	closed	Win 10 / Opera	Sign Up		Input fields on Sign Up page are highlighted in red before any data are entered	Major	High	1. Navigate to the page	1. Open Sign In / Sign Up in the Header. 2. Examine the Sign in or Sign Up form.	Input fields have placeholders and have no highlight of any color.	Input fields are highlighted in red although no data has been yet entered.							
bug	closed	Win 10 / Opera	Sign Up		Automatic fill in with saved credentials is not working while filling fields on Sign Up form	Major	High	1. Navigate to the page 2. User is registered. 3. User saved the credentials in browser for automatic fill in.	1. Open Sign In / Sign Up in the Header. 2. Browser notification appears suggesting to use saved data for this web app. Press "OK".	On every page, the saved credentials are automatically put into the sign fields without any error message appearing.	On Sign Up page, saved email is put into the username field, and password field gets highlighted in red despite valid data has been entered.	Test Evidence 2						
bug	closed	Win 10 / Opera	Account		Blank page displays on Account page after registration and automatic login	Critical	High	1. Navigate to the page	1. Open Sign In / Sign Up in the Header. 2. Enter valid data into all the input field. 3. Click "Sign Up".	A user is automatically redirected to the Account page with Bookmarks section active.	A user is redirected to the Account page. The page is blank and nothing displays, but URL in the address bar is written correctly.	Test Evidence 23						
bug	closed	Win 10 / Opera	Sign Up		Validation missing in Email field on Sign Up form	Major	High	1. Navigate to the page	1. Open Sign Up in the Header. 2. Enter valid data into Email and Username fields. 3. Enter invalid data into Email field without @. 4. Click "Sign Up".	User cannot sign up with invalid email. Field gets highlighted in red, and error notice appears to indicate what is wrong and what the requirements are for Email field.	User is successfully signed up and automatically signed in with invalid email. Validation requirements should apply.							
bug	closed	Win 10 / Opera	Sign Up		Validation missing in Password field on Sign Up form	Major	High	1. Navigate to the page	1. Open Sign Up in the Header. 2. Enter valid data into Email and Username fields. 3. Enter password containing only spaces into Password field. 4. Click "Sign Up".	User cannot sign up with invalid password. Field gets highlighted in red, and error notice appears to give information on password requirements to use in order to make the entered data valid.	User is successfully signed up and automatically signed in with invalid and insecure password. Validation requirements should apply.							
bug	closed	Win 10 / Opera	Sign Up		Validation missing in Username field on Sign Up form	Major	High	1. Navigate to the page	1. Open Sign Up in the Header. 2. Enter valid data into Email and Password fields. 3. Enter username consisting of 1 symbol into Username field. 4. Click "Sign Up".	User cannot sign up with username of 1 symbol. Field gets highlighted in red, and error notice appears to give information on data length.	User is successfully signed up and automatically signed in with invalid and insecure password. Validation requirements should apply.							
bug	closed	Win 10 / Opera	Sign Up		Required input fields not indicated in Sign Up form	Major	High	1. Navigate to the page	1. Open Sign In page. 2. Examine the Sign Up form input field.	Required input fields should have an indication to show that they are mandatory.	Required input fields do not have any indication to show that they are mandatory.							
bug	closed	Win 10 / Opera	Sign In		Required input fields not indicated in Sign In form	Major	High	1. Navigate to the page	1. Open Sign In page. 2. Examine the Sign In form input fields.	Required input fields should have an indication to show that they are mandatory.	Required input fields do not have any indication to show that they are mandatory.							
bug	closed	Win 10 / Opera	Sign In		Validation missing in Email field on Sign In form	Major	High	1. Navigate to the page	1. Open Sign In in the Header. 2. Enter valid data into Password. 3. Enter invalid data into Email field without @. 4. Click "Sign In".	User cannot sign in with invalid email. Field gets highlighted in red, and error notice appears to indicate what is wrong and what the requirements are for Email field.	No error message appears that user entered a wrong email into input field.							
bug	closed	Win 10 / Opera	Sign In		Validation missing in Password field on Sign In form	Major	High	1. Navigate to the page	1. Open Sign In in the Header. 2. Enter valid data into Email field. 3. Enter invalid data into password field without spaces. 4. Click "Sign In".	User cannot sign in with invalid password. Field gets highlighted in red, and error notice appears to indicate what is wrong and what the password template that is accepted.	No error message appears that user entered a password that does not comply with templated being accepted in the input field.	Test Evidence 24						
bug	closed	Win 10 / Opera	Sign In		Insecure "Wrong password" message appears when user tries to sign in with registered email and wrong password	Major	High	1. Navigate to the page 2. User is registered.	1. Open Sign In page. 2. Enter valid email of a registered user. 3. Enter valid password that is not registered for the user. Click "Sign In".	Both Email and Password fields get highlighted in red, notification appears: "Invalid email or password".	Notification appears: "Wrong password". For security reasons, notification should not state what data are invalid, email or password. General message "Invalid email or password" should appear to give others a chance of guessing the data and hacking the account.	Test Evidence 25						
bug	closed	Win 10 / Opera	Sign In		Nonconformity in names on Sign In page	Major	Medium	1. Navigate to the page	1. Open Sign In page. 2. Examine the Sign in form title, button and link name in the Header.	Form title, link name and button have the same text: "Sign In" or "Log In".	Form title has "Sign In" text, while link and button have "Log In" text written.	Test Evidence 3						
bug	closed	Win 10 / Opera	Community		Background color is default while on Community page	Minor	Medium	1. Navigate to the page	1. Open Community page in the Header. 2. Click on icon for the page. 3. Examine the Community page CSS.	There's a background color set for the users list container.	Background color for users list container in DevTools is not stated; it is default while unrelated from other properties.	Test Evidence 34						
bug	reopened	Samsung Android Chrome	Game card		Game description color in Game card blends with background color on Catalog page on mobile screen of any brightness	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Examine the game card in the Catalog.	Game description background color is blue and is clearly seen on black background of the Catalog page.	On mobile screen with any brightness set, blue color of description is too dark to be seen on black background.	Test Evidence 4		On mobile screen, dark blue blends with the background color				
bug	opened	Win 10 / Opera	Account		Sign Out button does not align with other elements' positions on Account page	Minor	Medium	1. Navigate to the page	1. Open user's account page. 2. Locate the Sign Out button. 3. Compare the button's position comparing to Bookmarks and Friends lists position and right border of game cards in Bookmarks.	Bottom of the button is on the same line as Bookmarks and Friends headers. User's eye size of the button aligns vertically with the right side of the game cards in Bookmarks.	Sign Out button does not align with other card vertically and with Bookmarks and Friends headers horizontally.	Test Evidence 5		Sign Out button is to be moved to the Header				
bug	closed	Win 10 / Opera	Header		Links in nav menu in Header do not change when hovered over	Minor	Low	1. Navigate to the page	1. Hover over any link in the navigation menu in the Header.	The styling of links should change: color, font-size or font weight to indicate that every link is working.	Links in the nav menu do not change their styling after mouse cursor hovers over any of them.	Test Evidence 6						
bug	closed	Win 10 / Opera	Footer		Links in footer do not change when hovered over	Minor	Low	1. Navigate to the page	1. Scroll down to the footer. 2. Hover over any link in the navigation menu in the Header.	The styling of links should change: color, font-size or font weight to indicate that every link is working.	Links in the footer do not change their styling after mouse cursor hovers over any of them.	Test Evidence 7						
bug	closed	Win 10 / Opera	Catalog		No hover properties for pagination on Catalog page	Minor	Low	1. Navigate to the page	1. Open Catalog in the Header. 2. Scroll down to the footer. 3. Hover over any page link in the pagination area.	Every pagination link changes its appearance, mouse cursor turns into pointer.	Mouse cursor turns into pointer when it moved over the pagination link, but the link itself does not change its styling.	Test Evidence 8						
bug	opened	Win 10 / Opera	Game card		Black colored game cover of game card blends with background color on Catalog page	Minor	Low	1. Navigate to the page	1. Open Catalog in the Header. 2. View "Lode Runner" (see other options in QA Commentary) in Search field and press "GO". 3. Examine the game preview card.	Game cover screenshot that has black color is distinguishable from the background black color of the Catalog page.	Game cover that contains black color blends with the background color of the page.	Test Evidence 10		Lode Runner, Castle of No Escape, Fists of the Gods, Brave Furies...				
bug	closed	Win 10 / Opera	Game card		Game description gets too close to the bottom edge of game card on Catalog page	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Write "Shadow Tactics" in Search field and press "GO". 3. Examine the game preview card.	Game preview card contains the full title of release and genre, it fits in long and takes some space, the rest of the text should not get close to the bottom of the container pressed to the edge.	Since the title is long and takes the majority of space in the description area, genres are located in the bottom of the container instead to the edge.	Test Evidence 9		padding needed or game title font-size to be a couple of pixels smaller or both options				
bug	closed	Win 10 / Opera	Game card		Extra-long game title gets cropped in game card's description on Catalog page	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Write "Victor" in Search field and press "GO". 3. Examine the title of the game.	Title of the game is short and does not go beyond the game card. Also, year of release and genre are displayed in the game preview description.	Title of the game is too long due to superfluous text contained there, and title is cropped going beyond the game card on Catalog page. No place left for year of release and genre information.	Test Evidence 11						
bug	closed	Win 10 / Opera	Feedback		Upload image button overlaps the text in Feedback text area	Minor	Medium	1. Navigate to the page	1. Scroll down to the footer. 2. Click on "Leave Feedback" button. 3. Write text of more than 250 symbols so that it reaches the upload file icon.	Upload button is in the lower left corner and does not overlap the text if it reaches the button. The text should not get under the button and be overlapped.	The text written can be seen under the transparent upload button, button overlaps the text.	Test Evidence 12						
bug	closed	Win 10 / Opera	Account		No notification of wrong format when non-image file is uploaded as user's avatar	Minor	Medium	1. Navigate to the page 2. User is logged in.	1. Open user's account page. 2. Click on user's avatar. 3. Browse .doc file or .pdf file of more than 4MB.	File uploading is cancelled and notification appears: "Invalid file format or weight of a file uploaded as user's avatar".	The file of any format is uploaded as user's avatar without any notification, but is not displayed on the page.	Test Evidence 14						
bug	closed	Win 10 / Opera	Search		No topbottom margin between games in Search hints when game card data are entered into Search field on Home page	Minor	Medium	1. Navigate to the page	1. Place the cursor in the Search field in the Header. 2. Start writing the title of a game. 3. Examine the Search hints appearing in the drop-down area.	Games are displayed in Search hints with margin between different results.	Covers of the games in Search hints are displayed pressed to each other without any margin in between.	Test Evidence 13						
bug	closed	Samsung Android Chrome	Header		Opened page in nav menu is not highlighted in burger menu on mobile	Minor	Medium	1. Navigate to the page	1. Open any page in the nav menu. 2. Tap to open burger menu.	The opened page should be highlighted in navigation menu to give user a hint on where they are.	Active page is not highlighted in the navigation menu.	Test Evidence 15						
bug	closed	Tablets with > 700	Sign Up		"JOIN THE COMMUNITY OF GAMERS" text missing from Sign Up/Sign In forms on tablets when any mode (portrait/landscape) is on	Minor	Medium	1. Navigate to the page	1. Open Sign In / Sign Up icon in the Header. 2. Tap to open Sign Up page. 3. Tap to open Sign Up page.	"JOIN THE COMMUNITY OF GAMERS" is located above the Sign In/Sign Up forms.	The text is absent from the page, and both Sign In and Sign Up pages have empty space above.	Test Evidence 16		Without it, page looks a bit empty				
bug	closed	Samsung 2400x1080	Game page		Large screenshot got cropped when it is opened with portrait mode on	Major	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Click to open any game page. 3. Tap to open a screenshot.	Screenshot opens in modal window and scales up according to the width of the screen.	Screenshot in portrait mode is cropped from both sides so that Close button is not seen on the screen, and user needs to swipe to reveal the Close button.	Test Evidence 28						
bug	closed	Samsung 2400x1081	Game page		Screenshot Close button is overlapped by scrollbar when landscape mode is on	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Click to open any game page. 3. Tap to open a screenshot. 4. Examine the Close button area.	Screenshot opens on the screen in full without being cut from any side. Close button is clearly seen in the upper right corner.	There's a scrollbar that overlaps the Close button in the upper right corner.	Test Evidence 31						
bug	closed	Win 10 / Opera	Game page		Game provider link on Game page does not change when cursor hovers over it	Minor	Low	1. Navigate to the page	1. Open Catalog in the Header. 2. Click to open any game page. 3. Move mouse cursor over game provider icon link.	Game provider link changes its appearance after mouse cursor hovers over it: size becomes bigger, color changes and cursor turns into pointer.	Mouse cursor turns into pointer, but icon remains unchanged upon hover.	Test Evidence 17						
bug	closed	Win 10 / Opera	Feedback		Second upload of images to the "Leave Feedback" form replaces previously uploaded images	Minor	Medium	1. Navigate to the page 2. "Leave Feedback" modal window is opened. 3. At least one photo is uploaded into the Feedback form.	1. Click on upload button. 2. Browse at least one image from device.	Second image is successfully added next to the previously uploaded image.	Second image replaces the first uploaded image. This can have a significant negative impact on user experience, as users may accidentally overwrite previously uploaded photos while just wanting to add more they target to add last time.							

Type	Status	Environment	Page / Function	Summary	Severity	Priority	Preconditions	Steps to reproduce	Expected result	Actual result	Attachments	QA Commentary	Developer commentary
Bug	Closed	Mobile device, tablets	Catalog	Feedback form is located in the lower right corner of the screen when portrait mode is on	Minor	Medium	1. Navigate to the page	1. Scroll down to the footer. 2. Click on "Leave Feedback" button	"Leave Feedback" modal window opens in the center of the mobile screen	"Leave Feedback" modal window opens in the lower right corner of the mobile screen	Test Evidence 30		
Bug	Closed	Win 10 / Opera / Android v11 Chrome	Game page	Comment does not display on the game page after its publication	Major	High	1. Navigate to the page	1. Open Catalog in the Header. 2. Open any game page. 3. Write a comment and press "Comment"	Comment is successfully published and displayed in the comments section with user's avatar, comment and date is written	Comment does not display, only border is visible. In DevTools, in Console, error appears "Cannot read properties of null (reading 'avatar')"	Test Evidence 42		
Bug	Closed	Win 10 / Opera Chrome	Game page	Published comment changes its place after page refresh	Major	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Open any game page. 3. Write a comment and press "Comment"	Comments are displayed in descending order by the date of publication from the most recent ones to the oldest ones	The published comment is displayed on the top of section, but after refresh is placed second	Test Evidence 43		
Bug	Closed	Win 10 / Opera / Android v11 Chrome	Catalog	"Something went wrong" and 404 Error in Console appear after click on page 500 on Catalog page	Critical	High	1. Navigate to the page	1. Open Catalog in the Header. 2. Scroll down to the footer 3. Click on page 500	The last page of the Catalog opens. Game cards are displayed	"Something went wrong" text with image appears. In DevTools, in Console, 404 Error is reported	Test Evidence 44		
Bug	Openend	Win 10 / Opera / Android v11 Chrome	Account	No validation for the username editing input field on Account page	Major	Medium	1. Navigate to the page 2. User is logged in.	1. Open Account page in the Header. 2. Click on "Edit" button next to username. 3. Write one symbol and press "OK".	After user has typed only one symbol, error message appears below the input field to indicate what the minimum amount of symbols is for the field. Click on "OK" with validation rules omitted should not bring any reaction. Error message is displayed until invalid data is corrected	No error message appears about requirements for the input field immediately after user has typed in. Default browser error message appears only after user presses "OK."	Test Evidence 45		
Bug	Openend	Win 10 / Opera / Android v11 Chrome	Account	No maximum limit for username length in the username editing field on Account page	Major	Medium	1. Navigate to the page 2. User is logged in.	1. Open Account page in the Header. 2. Click on "Edit" button next to username. 3. Write text of more than 200 symbols long and press "OK".	Error message appears below input field to give information on maximum amount of symbols for the username field. "OK" button is disabled and error message displays until data are corrected according to the validation requirements	Long text is successfully accepted, and the username is updated.	Test Evidence 46		
Bug	Openend	Win 10 / Opera / Android v11 Chrome	Game page	"Comment" button overlaps the text in the Comment field on a game page	Major	High	1. Navigate to the page 2. User is logged in.	1. Open Catalog in the Header. 2. Open any game page. 3. Write a comment with text of more than 200 symbols long 4. Press "Comment"	Text should not reach the "Comment" button and get underneath it.	Written text gets overlapped by the button.	Test Evidence 47		
Bug	Openend	Win 10 / Opera / Android v11 Chrome	Game page	"Reply" button overlaps the text in the Comment field on a game page	Major	High	1. Navigate to the page 2. User is logged in.	1. Open Catalog in the Header. 2. Open any game page. 3. Write a comment with text of more than 200 symbols long 4. Press "Comment"	Text should not reach the "Reply" button and get underneath it.	Written text gets overlapped by the button and is not visible.	Test Evidence 48		
Bug	Openend	Win 10 / Opera / Android v11 Chrome	Game page	"Close" or "Cancel" button missing from Reply field in the comment section on a game page	Major	High	1. Navigate to the page 2. User is logged in. 3. There is at least one comment published on any game page	1. Open Catalog in the Header. 2. Open any game page that has a comment published. Press "Reply" on the first comment. 3. Press "Comment".	Reply field is wide and contains "Close" button to cancel writing a reply. Close button helps to discard replying and make the field disappear since it is not needed anymore.	Reply field is narrow and does not contain "Close" button anywhere on the field. Reply field can be discarded only by repeated click on "Reply" icon	Test Evidence 50		
Bug	Openend	Win 10 / Opera / Android v11 Chrome	Game page	No margin between reply to a comment and next parent comment on a game page	Minor	Medium	1. Navigate to the page 2. User is logged in. 3. There is at least two comments published on any game page	1. Open Catalog in the Header. 2. Open any game page that has a comment published. Press "Reply" on the first comment. 3. Write a comment and press "Reply".	Reply is located on the same distance from the first comment and the second comment.	Reply to the first comment and the second comment have no margin between them, and they are pressed to each other.	Test Evidence 51		
Bug	Openend	Win 10 / Opera / Android v11 Chrome	Game page	Empty Reply field remains under the comment to which a reply was published on a game page	Major	High	1. Navigate to the page 2. User is logged in. 3. There is at least one comment published on any game page	1. Open Catalog in the Header. 2. Open any game page that has a comment published. Press "Reply" on the first comment. 4. Write a comment and press "Reply".	Reply field disappears, and the reply comment is published and shown under the comment it is assigned to.	Empty reply field remains below the comment, and reply comment is not visible since it was hidden and can be read by click on "Show replies" button in the parent comment.	Test Evidence 52		
Bug	Openend	Samsung Android v11 2400 x 1080	Game page	"Show replies" button blends with the text of a comment after a reply is published to this comment	Minor	High	1. Navigate to the page 2. User is logged in. 3. There is at least one comment published on any game page	1. Open Catalog in the Header. 2. Open any game page that has a comment published. Tap "Reply" on the first comment. 4. Write a comment and press "Reply".	Reply field disappears, and the reply comment is published and shown under the comment it is assigned to.	Reply comment gets hidden, and can be read by click on "Show replies" button. "Show replies" button blends with the text of the comment.	Test Evidence 53		
Bug	In Progress	Win 10 / Opera / Android v11 Chrome	Game page	Reply to a comment is shown as a reply to an empty comment block on a game page	Critical	High	1. Navigate to the page 2. User is logged in. 3. There is at least one comment published on any game page	1. Open Catalog in the Header. 2. Open any game page that has a comment published. Tap "Reply" on the first comment. 4. Write a comment and press "Reply". 5. Refresh the page.	Two comments display - one parent comment and a reply to it. Parent comment has button "Show replies" that shows the reply written. When reply is seen, "Show replies" button is available to hide the reply from the page. Each comment has user's avatar, username and date of publication.	Parent comment has user's avatar, name, date of publication, but there is no "Show replies" button that can display the reply to the comment. Reply is hidden in the other block that has no user's avatar, date and name, as well as Delete button.	Test Evidence 54		
Bug	Openend	Win 10 / Opera	Search	Search hints list displays after a game page from the search results list is opened	Major	Medium	1. Navigate to the page	1. Click on Search field on the Homepage or Catalog page. 2. Write any game title in the Search field. 3. Click on any game title in the Search hints	After clicking on game title in the search hints, Search field gets clear, search hints disappear while the page of the chosen game opens.	The page of the chosen game opens, but Search field still contains data and Search hints list is still displayed.	Test Evidence 55		
Improvement	Closed	Game page	Search field is missing from Account and Game page	Search field is missing from Account and Game page	Minor	Medium	1. Navigate to the page 2. User is logged in.	1. Open Catalog in the Header. 2. Open any game page. 3. Examine the Header. 4. Click on Account in the Header. 5. Examine the Header on the page.	Search field is present on every page of the web app, so that a user has access to the Catalog and can search for a game whenever they find it convenient.	Search field is present only on the Homepage and Catalog page, and user needs to go to one of these pages to conduct search. Search in this web app is one of the most important functionalities, and user should have access to it on any page for quick and instant search.	Test Evidence 49		
Improvement	Openend	Any page		No styling for "Something went wrong" text when Internet connection is bad or absent	Minor	Low	1. Navigate to the page	1. Open any page in the navigation menu. 2. Open DevTools, Network tab and set Throttling to "Slow 3G". 3. Change throttling to "Offline".	"Something went wrong" text appears instead of the page content. Next to it an image is displayed.	Text of the message is not styled, and placeholder text does not display when Internet connection is off.	Test Evidence 41		
Improvement	Closed	Catalog		Recently released games are not displayed first on Catalog page	Minor	Medium	1. Navigate to the page	1. Open the Catalog page. 2. Examine the year of release of games on the first page.	Games on catalog should be displayed according to the year of release from the most recent ones to the latest, so games released in 2023 should be on the first page.	Games on the Catalog page are displayed in random order. Variety of the page should be introduced with the newest games the industry can offer.	Test Evidence 40		
Improvement	Closed	Search		"Clear" button missing from the Search field on Home and Catalog pages	Minor	Low	1. Navigate to the page	1. Put cursor in the Search field either on Home or Catalog page. 2. Write the game title and press "Clear". 3. Clear the field to write another title.	There is a "Clear" button in the Search field that allows to clear the field by one click to start another search query. In addition, user can delete text in the field manually, if they want to correct query a bit.	"Clear" button is absent, so a user needs to manually delete the data in the Search field. It is particularly uncomfortable if a game's title is long.	Test Evidence 49		
Improvement	Openend	Game page		Screenshot should open in a modal window by clicking on it on game page	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Click to open any game in Catalog 3. Hover over a Screenshot	There is a "Screenshot" in the modal window. There are buttons "Back" and "Next" that open the previous or next screenshot respectively in the modal window.	No reaction after click on a screenshot. User should be able to look at an image closely.	Test Evidence 18		
Improvement	Openend	Account		No styling for "No friends" text on new user's Account page	Minor	Medium	1. Navigate to the page 2. New user is successfully registered. 3. User is logged in.	1. Open new user's account page. 2. Examine the "Friends" section	There is a placeholder styled notifying the user of no friends in their network.	Placeholder "No friends" is not styled and aligned to center.	Test Evidence 17		
Improvement	Openend	Account		No styling for "No bookmarks" text on new user's Account page	Minor	Medium	1. Navigate to the page 2. New user is successfully registered. 3. User is logged in.	1. Open new user's account page. 2. Examine the "Bookmarks" section	There is a placeholder styled notifying the user of no games added to bookmarks.	Placeholder "No bookmarks" is not styled and aligned to center.	Test Evidence 19		
Improvement	Openend	Search		No styling for "No matches" text when no search results found on Catalog page	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Write some gibberish words in the Search field.	There is a placeholder styled notifying the user of no search results found.	Placeholder "No matches" is not styled and aligned to center of the page.	Test Evidence 20		
Improvement	Openend	404 Error Page		No styling for "Back to Homepage" button on 404 Page	Minor	Low	1. Navigate to the page	1. Open any page in the nav menu. 2. Write some gibberish words in the address row to make the link broken. 3. Press "Enter"	The 404 Error page appears with button "Back to Homepage".	"Back to Homepage" button is not styled and does not look like a button for a user to notice it.	Test Evidence 21		
Improvement	Closed	Game card		Bookmark button missing from game card on Catalog page	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Examine any game card in Catalog	There's "Bookmark" button next to game rating for quick adding to user's bookmarks	Bookmarks button is available only on Game page when user clicks to open it. Button being on game card preview in Catalog would assist user's experience in web app.	Test Evidence 22		
Improvement	Openend	Game page		No time and date of comment submitted are shown in comments section on game page	Major	Medium	1. Navigate to the page 2. User is logged in.	1. Open Catalog in the Header. 2. Click to open any game in Catalog. 3. Write a comment and press "Send"	A user can see the exact date and time when the comment was published.	Date and time of comment is in common use for social media and forums, so this is a must.	Test Evidence 23		
Improvement	Openend	Game page		"Reply", "Edit" and "Delete" buttons are absent from comments section on Game page	Major	High	1. Navigate to the page 2. User is logged in.	1. Open Catalog in the Header. 2. Click to open any game in Catalog. 3. Write a comment and press "Send". 4. Examine the published comment	A user can edit the comment or delete it with the help of options "Edit" and "Delete". "Delete" button is located in the upper right corner of a published comment. Also, there's "Reply" button to start conversation with other user.	"Edit" and "Delete" buttons, as well as "Reply" button are absent in the comments section.	Test Evidence 23		
Improvement	Openend	Community		"Add friend" missing from user's card in the users list on Community page	Minor	Low	1. Navigate to the page	1. Open Community in the Header. 2. Examine the users list on the page.	There's "Add friend" button that allows to quickly send a friend request to any user in web app. If user is logged in, the button should change after clicking on it to "You are not friends". If user is not logged in, the notification should appear after clicking on "Log in to send an invitation".	"Add friend" button is available only when user opens another person's account. Button being on user's card on Community page would assist user's experience in web app.	Test Evidence 24		
Improvement	Openend	Sign Up		Email verification is missing from Sign Up flow in the web app	Major	Medium	1. Navigate to the page	1. Open Sign Up page. 2. Fill in all the input fields with valid data. 3. Click "Sign Up".	Page opens with notification that letter was sent to the email to verify the email. User sent by email leads to the page with message "Email successfully verified". And user can log in with the credentials.	User is signed up and automatically signed in without any email verification. User could enter an email that does not belong to them.			
Improvement	Openend	Sign In		Social Login should be added to the Sign In form	Major	Medium	1. Navigate to the page	1. Open Sign In page in the Header. 2. Examine the Sign In form elements	Using existing login information from a social network provider like Facebook/Twitter/Google, the user can sign into a third party website instead of creating a new account specifically for that website.	User needs to create a new account specifically for the web app which could be uncomfortable especially when automatic fill in is turned off in the web app.			
Improvement	Openend	Sign In		"Forgot Password" functionality is missing from Sign In form	Major	Medium	1. Navigate to the page 2. User is registered in the system. 3. Email verification was successfully conducted	1. Open Sign In page in the Header. 2. Examine the Sign In form elements	If a user does not remember the password, there's a "Forgot password" clickable text that leads the user to the page where they are prompted to write an email and initiate sending link to the registered email. Link to email redirects a user to the page where they can create new password, confirm it and login with new credentials.	If email verification is conducted in web app, "Forgot password" functionality can be added as well for better convenience and user experience.			
Improvement	Closed	Account		Current username is not visible after user clicks "Edit" on Account page	Major	Medium	1. Navigate to the page 2. User is logged in.	1. Open new user's account page. 2. Click "Edit" next to username	User should see the current username in the field before changing it.	Current username is not visible for user, the editing field is empty.	Test Evidence 26		

Type	Status	Environment	Page / Function	Summary	Severity	Priority	Pre-conditions	Steps to reproduce	Expected result	Actual result	Attachments	QA Commentary	Developer commentary
Improvement	Closed		Header	Account and Sign In/Sign Up icons in the header are too small and have no hover properties	Minor	Medium	1. Navigate to the page	1. Locate the Sign In/Sign Up button in the right corner of the Header.	Account and Sign In/Sign Up icons in the Header are of average size to be spotted and when user hovers over it, the icon changes color	Icons look small in relatively empty header area, and no reaction appears after hover over.	Test Evidence 24		
Improvement	Closed	Computer / laptop	Catalog	"Scroll back to top" button is absent from the Catalog page	Minor	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Scroll the Catalog down to the footer.	The "Scroll back to top" button becomes visible when scrolling down, if a user clicks on it, the page returns to the top and the button fades out.	There is no such button, and user is forced to scroll the page back to top manually, which is uncomfortable when there are a lot of content on the page.			
Improvement	Closed	Tablets, mobile device	Catalog	"Scroll back to top" buttons is absent from the Catalog and Home pages on mobile and tablets in any mode (portrait/landscape)	Minor	High	1. Navigate to the page	1. Open Catalog in the Header. 2. Flip the Catalog down to the footer.	The "Scroll back to top" button becomes visible when scrolling down, if a user clicks on it, the page returns to the top and the button fades out.	There is no such button, and user is forced to scroll the page back to top manually, which is uncomfortable when there are a lot of content on the page.			
Improvement	Closed	Computer / laptop	Account	Image upload modal window should include drag and drop and crop functionalities	Minor	Medium	1. Navigate to the page 2. User is logged in	1. Open user's account page. 2. Click on user's avatar to upload an image. 3. "Change profile photo" modal window opens.	"Change profile photo" modal window contains area where a user can either click "Browse" to upload a photo, or drag and drop an image from a folder on computer. After an image is uploaded, a user can choose the part of image for avatar. There is buttons "Crop" if user wants to set an avatar and "Cancel" if user wants to try another image.	Image is uploaded and set as user's avatar even if final result does not look good. The image is cropped by default the wrong way.			
Improvement	Closed	Account	Account	Sign Out modal window is absent when a user clicks on "Sign Out" button	Minor	Medium	1. Navigate to the page 2. User is logged in	1. Click on Sign Out button.	Sign Out modal window appears "You want to sign out?" with two options: "Yes, sign out" and "No, cancel". A "Sign Out modal window would provide a clear and prominent message for the user that they are about to log out of the website.	User is logged out immediately, in some cases, user could press "Sign Out" accidentally so having modal window confirming sign out would prevent users from accidentally leaving the website			
Improvement	Closed	Account	Account	Registration for "Bookmarks" and "Friends" sections is missing on Account page	Minor	Medium	1. Navigate to the page 2. User is logged in 3. At least 11 Bookmarks were added	1. Open user's account page. 2. Enter the "Bookmarks" section on the page.	Registration is present for both sections and displays 10 elements per page. Friends and Bookmarks are displayed in alphabetical order.	Registration for both "Bookmarks" and "Friends" is missing. If a user has lots of bookmarks added to his profile, it's more convenient to have pagination.			
Improvement	Closed	Computer / laptop	Search	Maximum ten filters can be chosen the time a Filters on Catalog page	Major	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Examine the available filters on the page.	Filter options are provided in the form of the dropdown list, so a user can only use two filters at a time: one from "Order By" group and one from "Content" group.	Filter options are provided in the form of drop-down list. User can only use two filters at a time: one from "Order By" group and one from "Content" group.	Test Evidence 26		
Improvement	Closed	Search	Search	No descending and ascending sorting available in Filters on Catalog page	Major	High	1. Navigate to the page	1. Open Catalog in the Header. 2. Examine the available filters and sorting options on the page.	Given the Name, Rating, Released, Costed filters are available, user should have the opportunity to sort the results as they want: either from high to low or from low to high rating or multicritic; from recent dates to older ones, from a to z or from z to a.	Opportunity to make ascending and descending sorting is not available during Search. Filters by rating provide games from highest ranking to the lowest, while Name filter displays games from a to z. Nonconformity presents in the filter application.	Test Evidence 29		
Improvement	Closed	Search	Search	"Clear All" button is missing from Filters on Catalog page	Major	Medium	1. Navigate to the page	1. Open Catalog in the Header. 2. Choose a couple of filters from the drop-down list.	There is a "Clear All" button that helps to remove all the filters by one click and start setting filters from scratch.	Filters section on user is forced to delete filters one by one.
